Re: Request to Veto Sub. H.B. 554

Dear Governor Kasich:

As a business leader in Ohio, I urge you to support diversified investment in clean energy by a veto of Sub. H.B. 554, restoring the Renewable Energy Portfolio and Energy Efficiency Standards. The time to wait is over. We have seen that other states with strong standards have seen growth in clean energy capacity, innovation, efficiency savings and clean energy jobs. It is time to invest in Ohio's future. Please veto Substitute H.B. 554.

Sincerely,
